Summary

Driven game designer with a passion for creating meaningful player experiences. Inspired by "Skies of Arcadia" at age 8, my goal is to create games that impact players the same way. Military background (U.S. Army Infantry, 2013-2016) built discipline and teamwork. Full Sail University graduate (BS Game Design, 2021). Currently building a full Skies of Arcadia fan remake in Unreal Engine 5.

AI Journey: From "scared of AI" to building AI partnership systems in weeks. Used game design problem-solving skills to learn through hands-on collaboration, not courses. Built complete AI infrastructure from scratch — skills, memory systems, configuration, and debugging.

Skills

Game Design: Level Design, Gameplay Mechanics, UX/UI Design, Systems Design

Technical: Unreal Engine 5, Nanite, Lumen, Blueprint Programming, Blender, Maya, Asset Integration

AI & Tools: AI Agent Configuration, Memory Systems, OpenClaw, Perforce, Trello

Experience

Skies of Arcadia Fan Remake

Independent Development | 2021 - Present

U.S. Army Infantry | 2013 - 2016

Discipline, leadership, and teamwork fundamentals

The Journey

2013-2016: U.S. Army Infantry !' 2019-2021: Full Sail Game Design !' 2021-Present: Self-taught UE5, building Skies of Arcadia fan remake. This isn't a typical career path — it's a transformation story of someone who found their passion and pursued it fully.
