SUMMARY

Game designer driven by one question: how do games change lives? At 8 years old, Skies of Arcadia taught me that a person's actions don't define their worth — a lesson that stuck with me and inspired me to create games that impact players the same way.

My path has been unconventional. Army Infantry (2013-2016) taught me discipline and how to lead under pressure. Full Sail University gave me the technical foundation (BS Game Design, 2019-2021). But the real education has been the indie grind — teaching myself UE5, building a full Skies of Arcadia fan remake from scratch, and continuously learning new tools as I go.

AI Partnership:

Recently, I partnered with an AI agent to build a complete working system — skills architecture, memory systems, workflow automation — from the ground up. What started as "scared of AI" became "building with AI as a partner." This experience shows my ability to learn fast, solve problems creatively, and build systems that work. It is also the story of how I approach everything: find what inspires me, figure out how to build it, and keep pushing forward.

SKILLS

Game Design:

Level Design, Gameplay Mechanics, UX/UI Design, Systems Design, Gameplay Programming

Engine:

Unreal Engine 5, Nanite, Lumen, Blueprint Visual Scripting

3D Tools:

Blender, Maya, Quixel Bridge, Asset Integration

Version Control & Project Management:

Perforce, Trello

AI & Automation:

AI Agent Configuration, Memory Systems, OpenCLAW

EXPERIENCE

Skies of Arcadia Fan Remake

Independent Development | 2021 - Present

Building a full-scale remake of the classic game in Unreal Engine 5. Modeled and textured environment assets and buildings. Implemented Nanite/Lumen for modern graphics. Created cinematic cutscenes, full asset integration via Quixel Bridge. Managed project independently while continuously learning new tools.

Game Designer — Spaceballs The Game

SinDevSeven Team | April 2021 - July 2021

Capstone project with 7-person team. Scripted gameplay mechanics and transitions. Designed gameplay loops, created UX/UI for menus and instructions. Collaborated across disciplines to deliver playable demo.

EDUCATION

Bachelor of Science, Game Design

Full Sail University | 2019 - 2021

Focus on game mechanics, level design, and interactive storytelling.

U.S. Army Infantry

2013 - 2016

Discipline, leadership, and teamwork fundamentals.

THE JOURNEY

Army Infantry ! Full Sail Game Design ! Self-taught UE5. This is not a typical career path — it is a transformation story of someone who found their passion and pursued it fully.
